Amendment in Reply to Office Action mailed on February 27, 2006

IN THE SPECIFICATION

Please amend the specification as follows:

Replace the paragraph on page 3, between lines 17-18 of the specification with the following:

Figures 2A-2B ~~shows~~ show the two screen orientations of the device of Figure 1, for a first screen aspect ratio;

Replace the paragraph on page 3, between lines 19-20 of the specification with the following:

Figures 3A-3B ~~shows~~ show the two screen orientations of the device of Figure 1, for a first screen aspect ratio;

Replace the paragraph on page 4, between lines 8-10 of the specification with the following:

Figures 2A-2B ~~shows~~ show the display in the two orthogonal orientations when the screen has an aspect ratio of 16:9, which makes the screen suitable for widescreen video format.

Amendment in Reply to Office Action mailed on February 27, 2006

Replace the paragraph on page 4, between lines 19-22 of the specification with the following:

As shown in Figures 3A-3B, the screen may have an aspect ratio of 2:1. In this case, the rotation of the screen can result in two sub-screens of identical aspect ratio (because $2:1=1: 2/2$). This aspect ratio also enables four sub-screens of identical aspect ratio to fill the screen in the landscape orientation.
